EDUCATION

University of California, San Diego

Bachelor of Science (B.S.), Computer Science

San Diego, CA

Sept. 2025 – June. 2027

San Diego Mesa College

Associate in Science for Transfer Degree (AS-T), Computer Science

San Diego, CA

Aug. 2023 – May. 2025

Community College of Denver

Associate Degree of Science (A.S.)

Denver, CO

June. 2016 – May. 2017

EXPERIENCE

Research Associate

Pacific Biosciences

Mar 2022 – Aug 2022

San Diego, CA

- Established an efficient workflow which enabled research team to meet quotas and deliver kits to other business units far ahead of deadlines
- Contributed code to an automated quality assurance script using Python and additional UI/UX design which help outsourcing manufacturing to Mexico and increase production rate by 100%
- Utilized GitHub to collaborate and ensure version control across different teams

Laboratory Technician II

Omnio

Aug. 2019 – Feb.2020

San Diego, CA

- Proved ability to effectively communicate and delegate responsibilities in an R&D team in order to test and produce prototype DNA sequencing kits
- Exceeded quality control success rate for batches of upwards of hundreds of kits per week

Laboratory Technician

ProclisDx / Prometheus Laboratories

Apr. 2019 – Aug. 2019

San Diego, CA

- Assembled batches of chemical reagents for customized projects in a fast-paced environment
- Supported scientific team in prepping, experimenting, and documenting experiments
- Practiced document control in accordance with standard operating procedures

Bottling Technician

BioLegend

Aug. 2018 – Nov. 2018

San Diego, CA

- Coordinated with team to bottle, label, and finalize batches of chemical reagents and antibody compounds for delivery to clients while maintaining a sterile lab environment
- Analyzed batches to ensure satisfactory quality control standards
- Expressed keen awareness and adherence to proper safety protocols for handling chemical reagents with a 100% safety rate

PROJECTS

Personal Resume | *HTML, CSS, Bootstrap, SASS, Tailwind-CSS*

Jan 2025 – June 2025

- Developed a basic resume by utilizing Bootstrap and SASS
- Utilizing GitHub to keep track of version control

Monster Match Game | *Java*

Aug. 2023 – Dec. 2023

- Developed a matching card game as a final project in class using Java

TECHNICAL SKILLS

Languages: Java, Python, C/C++, JavaScript, HTML/CSS, R

Frameworks: React

Developer Tools: VS Code, Eclipse
